

Colorblind

Matt White

Come to me
Dry your eyes
I know you're feeling lonely
It's the perfect time
Try to stay grounded
You're never in line
I'm leaving you tomorrow in the early light
I don't want to lose this way again
A second chance to make a stand
We just failed to far behind
I've always known you're colorblind
Let me try and change your mind
I am colorblind
Say goodbye I would die

I won't compromise
Let me try and change your mind are you colorblind

When you look
At me that way
Behind those eyes is what I crave
I feel no weakness hear no lie
I see you reflection in a strangers eyes
I don't wanna lose this way again
A second chance to make a stand
We just fell too far behind
I've always known I'm colorblind
Let me try and change your mind
To be colorblind
Say goodbye I would die
Are you colorblind?

We may never say never
Love is on its way
It's a dream we share together
To look at you this way and smile

Let me try to change your mind
We are colorblind
Say goodbye I would die
We are colorblind
Let me try to change your mind
We are colorblind
We are colorblind
