

# Colorblind

Matt White

Come to me  
Dry your eyes  
I know you're feeling lonely  
It's the perfect time  
Try to stay grounded  
You're never in line  
I'm leaving you tomorrow in the early light  
I don't want to lose this way again  
A second chance to make a stand  
We just failed to far behind  
I've always known you're colorblind  
Let me try and change your mind  
I am colorblind  
Say goodbye I would die

I won't compromise  
Let me try and change your mind are you colorblind

When you look  
At me that way  
Behind those eyes is what I crave  
I feel no weakness hear no lie  
I see you reflection in a strangers eyes  
I don't wanna lose this way again  
A second chance to make a stand  
We just fell too far behind  
I've always known I'm colorblind  
Let me try and change your mind  
To be colorblind  
Say goodbye I would die  
Are you colorblind?

We may never say never  
Love is on its way  
It's a dream we share together  
To look at you this way and smile

Let me try to change your mind  
We are colorblind  
Say goodbye I would die  
We are colorblind  
Let me try to change your mind  
We are colorblind  
We are colorblind
