

Paradise

Matt White

Sometimes I feel like I am alone now
Trying to hold on, maybe I'll just give up
All those times when I said I loved you
I only meant to our love was so new

So much
How long can I wait for you?
Our time, I want you to come with me
You'll see too

Paradise, paradise
You and I
Paradise

Want to hold you
Touch you and feel you
Not try to please you
Just like I did before

All those times
I'll sing you these lullabies
It's now or never
Will our love weather?

So much
How long can I wait for you?
Our time, I want you to come with me
You'll see too

Paradise, paradise
You and I
Paradise

Oh, I think we're closer now
Touch me over and over, baby
I just want you to stay this way
Come with me and just take me away
Far away

Paradise, paradise
You and I
Paradise
