

## Generation X-Wing

Matthew Good Band

Venus was a fly trap  
The man you loved devoured  
I used to dream about your sister  
Standing in the shower  
But I was never cool  
You thought I was a cowboy  
I wonder where my gun is  
Can you spare a bullet senorita

I will always be the worst

Generation X-wing  
That's got to be the death star  
I used to dream about the future  
I used to dream about a lot of things  
But I was never cool  
So you can call me loser  
Yeah you can call me anything  
You want to senorita

I will always be the worst

Help me up with  
A pair of wings  
A little rope  
All those things  
She always said I'd find the cure for cancer  
I read my horoscope but I just can't pull it off alone

Venus was a fly trap  
The man you loved devoured  
I used to dream about your sister  
Fucking me in the shower  
But I was never cool  
So you can call me loser  
Yeah you can call me anything  
You want to senorita

I will always be the worst
