

Best to smile
Best to squeal for daddy
Best to revile
The baby Jesus loves the company

Must have lost my mind
When I lost the car keys on my way out
Strange how you're not with me

Where has my head gone?
Where do you hole up to
Mutilate the day away from me?
Where has my head gone?
Well I felt it slip away

Best to defile
Best to stay sleeping
In a while
I will awake to be a has been

Must have lost my mind
When I lost your heart key
On my way out
Strange how you're not with me
