## **Come Back Home**

## **Matthew Mayfield**

Another morning And I'm still holding onto you to you I'll write you letters Makes me a better man for you and I'd do Anything, any way Forever after All of the steps you take, I'm standing still Let it go and try to get some sleep Another morning And I'm still looking for a sign for a sign And all I wanted was for you to look me in the eye And find All of the everything that I found in you Madness and disarray, I still see through Let it go and try to get some sleep 'Cause you're a secret that I need to keep Come back Come back Come back Come back home to me Won't you come back? Won't you come back home to me? (2x) Come back Come back Come back Come back Please come back Come back Come back Come back home
