

# I Can't Get You Out of My Mind

Matthew Perryman Jones

I found you  
In a crowd of faces  
Watched you slip  
Through the spaces  
I didn't get your name  
You got away

I can't explain  
Why my heart is breaking  
One memory aching  
I want to hold you now  
Somehow

Ohh ohh ohh ohh ohh  
I can't get you out of my mind  
Ohh ohh ohh  
You've been there awhile

A stolen scene  
In the perfect movie  
A chance to see  
What it could be  
You walked into the frame  
Where you  
Remained

Ohh ohh ohh ohh ohh  
I can't get you out of my mind  
Ohh ohh ohh  
You've been there awhile

We walk through a world  
And we're never quite sure of  
How we ever begin  
Street lights and noises  
The unending voices  
Oh where do we fit in?

Ohh ohh ohh ohh ohh  
I can't get you out of my mind  
Ohh ohh ohh  
You've been there awhile

Ohh ohh ohh ohh ohh  
I can't get you out of my mind  
Ohh ohh ohh  
You've been there awhile

Ohh ohh ohh  
You've been there awhile
