

## Follow The Leader

Matthew Ryan

It's follow the leader, baby  
That's how it's gonna be  
If you ever really wanna get lost  
Then follow me

Follow the leader

We're in a solar system  
Together and alone  
The bills, the smoke, the furniture  
The happy home

Now you can follow your gut  
Or you can follow the past  
But if you knew an eclipse was coming

Why'd you even ask?

Follow the leader

(There's brighter days ahead  
I've seen them on tv  
Word is there's something big  
Hidden up their sleeve)

So maybe it gets quiet  
And maybe it gets numb  
At least then there's still something  
To share with someone

Follow the leader
