

## Get Older

Matthew Sweet

Who cares If they don't think your cool?  
They make everything about rules

And your older than that now  
Get older  
The world will fall into its place  
You may be sad  
When you get older  
You might be happy just to stay

Who cares if you don't know what you want  
Cause they don't know what they've got  
And you cannot resist  
Get older  
Your memories won't slip away  
And you'll be glad  
When you get older  
That you were happy for today  
Who cares?

If you don't know what you want  
If you don't know what you want  
If you don't know what you want  
If you don't know what you want
