

## Missing Time

Matthew Sweet

do you realize what they have done  
showed me I am not the only one  
planted something in my mind  
now I've begun to find  
missing time  
I want back  
I'm afraid that I can feel  
missing time  
I want back  
didn't realize they took from me  
everything my eyes had lived to see  
even when they touched my heart  
I felt I could not move  
missing time  
holds the key  
something they left here with me  
missing time  
I want back  
is there something I can almost see  
'cause you know they're coming back for me  
even as you watch us go  
missing time  
holds the key  
something they left here with me  
missing time  
I want back  
I'm afraid that I can feel  
missing time  
I want back  
I'm afraid that I can feel  
missing time  
I want back
