

## Speed Of Light

Matthew Sweet

You waited for something  
You turned your mind around  
You tried to consider  
That some hope might be found

But you still had a long way to go  
'Cause you took it your own hands to let us know  
How the pain can become too much  
The speed of light just isn't fast enough

You've broken a promise  
That you once made to me  
If there was a reason  
I never failed to see

But you still had a long way to go  
(Long way to go)  
To the dawn that was threatening never would show  
(Never would show)  
The pain has become too much  
The speed of light just isn't fast enough

An angel come and set you free  
Though your eyes are closed  
You continue to see, you touch the sun  
That still shines for me

You waited for something  
You turned your mind around  
You tried to consider  
That some hope might be found

But you still had a long way to go  
(Long way to go)  
To the dawn that was threatening never would show  
(Never would show)  
The pain has become too much  
The speed of light just isn't fast enough  
The speed of light just isn't fast enough
