

# This Above All

Matthew Sweet

You can't give everything  
There isn't much I can give  
It's not a penny from the foot  
He left in the door

Can't say anything  
Not say things though they  
Some may be  
But oh, baby

It's only today, this above all  
I thought you would remember  
And the first song is out the door  
This above all, you can remember  
This above all, I will remember too

You can't just go ahead  
And not look back at the past  
Some call it black  
Some hide it

Can't know anything  
And think you know it at all  
Without lying  
But you can keep trying

It's only today, this above all  
I thought you would remember  
And the first song is out the door  
This above all, you can remember  
This above all, I will remember too

You can't give everything  
There isn't much I can give  
It's not a penny from the foot  
He left in the door

Can't say anything  
Not say things though they  
Well some may be  
But c'mon, baby

It's only today, this above all  
I thought you would remember  
And the first song is out the door  
This above all, you can remember  
This above all, I will remember too

This above all  
This above all  
This above all  
This above all
