

## Your Sweet Voice

Matthew Sweet

Speak to me with your sweet voice  
And take me through another night  
Speak to me with your sweet voice  
And I will surely be alright

If I can close my eyes without a fear  
Speak to me with your sweet voice near

Hold me in your warm hand  
And I could sleep with you tonight  
Hold me in your warm hand  
And I could sleep with you tonight

And all my earthly cares might fade away  
If you hold me in your warm hand that way

It's as close as I get to love  
As close as I get to love  
Speak to me with your sweet voice again

Speak to me with your sweet voice  
And take me through another night  
Speak to me with your sweet voice  
And I will surely be alright

If I can close my eyes without a fear  
Speak to me with your sweet voice near  
Speak to me with your sweet voice  
That way speak to me with your sweet voice
