

Come Alive

Matty Mullins

I think I need a change of scenery.
I'm becoming like the rest of the walking dead
That I see around me.
I think I'm starting to lose my memory.
I can't remember the last time that I was on fire for anything.

I think it's time I come alive
(Time to come alive, time to come alive).
Don't always need a reason why
(Don't need a reason why, don't need a reason why).
I think it's time to
Break through(3x) tonight,
Take a risk, take a chance for once in my life.
I think it's time I come alive,
This time (3x)
I don't need a reason why.

Roll the dice & say goodbye.
I'm leaving town with two empty pockets & no alibi.
Maybe I think too much but that's alright.
I'm not afraid of being paranoid,
I'm afraid of losing my mind.

I think it's time I come alive
(Time to come alive, time to come alive).
I don't always need a reason why
(Don't need a reason why, don't need a reason why).
I think it's time to break through tonight,
Take a risk, take a chance for once in my life.
I think it's time I come alive,
This time(3x)
I don't need a reason why.

I'm not afraid to die,
I'm afraid of losing touch with the meaning of my life.(3x)

I'm not afraid to die,
I just need to come alive (3x)!

I think it's time I come alive
(Time to come alive, time to come alive).
Don't always need a reason why
(Don't need a reason why, don't need a reason why).
I think it's time to break through tonight,
Take a risk, take a chance for once in my life.
I think it's time I come alive,
This time (3x)
I don't need a reason why.
