

Love Is What You Make Of It

Maude

Let's take a walk, rock a smile
Maybe do somethin' we haven't done in a while
Do a dance, sing a song
Probably save the baf of what we're doin' later on

So come on, come on love hold my hand
The world's givin' us a chance
I say the world's givin' us our chance, oh oh
Hey!

'Cause love is what we make of it
It's a smile even if you're fakin' it
I can make a promise that would last we still have for
Together we're a beautiful soul
'Cause I could never do it on my own
I could never do it alone

Take a left, border call
Two traffic lines and then we're home
Open the door, step inside
Look into my eyes, I want your heart beat it's high

So come on, come on love hold my hand
Hold on to this floor like you know we can
Look into my eyes and you'll understand
Look into my eyes and hold my hand!

'Cause love is what we make of it
It's a smile even if you're fakin' it
I can make a promise that would last we still have for
Together we're a beautiful soul
'Cause I could never do it on my own
I could never do it alone

If I can fight the evil side
Like a superhero savin' lives
I can make a promise out of things we'll come to grow
Together we're a beautiful soul
'Cause I could never do it on my own

I could never ever do it without you
Without you, without you
I could never ever do it without you
Without you, without you

Hey yeah!

'Cause love is what we make of it (oh, oh)
It's a smile even if you're fakin' it
I can make a promise that would last we still have for (have for)
Together we're a beautiful soul
'Cause I could never do it on my own (no no, no no)
I could never do it alone

If I can fight the evil side
Like a superhero savin' lives
I can make a promise out of things we'll come to grow

Together we're a beautiful soul
'Cause I could never do it on my own
I could never do it alone!

I, I, I could never do it alone
You and I make such a beautiful soul
I, I, I could never do it alone
I, I, I could never do it alone (oh, alone)

I, I, I could never do it alone
You and I make such a beautiful soul (oh, whoa)
I, I, I could never do it alone
I, I, I could never do it alone
