

# Angel On My Shoulder

Maureen McGovern

Got an angel on my shoulder  
Got a penny in my pocket  
And I found a four-leaf clover  
And I put it in my locket

Wished on all the stars above me  
And I caught the nearest rainbow  
Gonna find someone to love me  
Gonna find someone to love

Well, I tossed a lot of nickels in a wishing well  
And saved the fortunes that the fortune cookies tell  
I got a lucky penny and a mustard seed  
But a warm and tender love is all I need

And I want a love that lingers  
And is stronger through and through  
So, I'm gonna cross my fingers  
That I'll find the boy to love me true  
And I'm gonna love him too

Well, I tossed a lot of nickels in a wishing well  
And saved the fortunes that the fortune cookies tell  
I got a lucky penny and a mustard seed  
But a warm and tender love is all I need

And I want a love that lingers  
And is stronger through and through  
So, I'm gonna cross my fingers  
That I'll find the boy to love me true  
And I'm gonna love him too

And I'm gonna love him too  
And I'm gonna love him too
