

Soldiers

Mavado

For everything that takes a man, a soldier
I can feel it get closer to me
Reunite when this sparkle is over
But they always seem to take the ones close to me

Every soldier that die, die for a cause
Die pon the battle field
Bless every mother that cry, momma cry for a cause
God, no life is real
Every soldier that die, die for a cause
Die pon the battle field
Bless every mother that cry, momma cry for a cause
God, no life is real

Your soul is missed while you're gone
You left your niggas all alone pon them own
Life goes on but the memories live on
I pray the angels fly and keep you warm
Life goes on, you look down on your soldier
Change hands, oh, can you fix it over
When it come to a closer, we put down our everything

Gone forever, but it's still much better
We've been through so many things
Many lost but some many wins
We were supposed to be kings
No flower on your wings

Every soldier that die, die for a cause
Die pon the battle field
Bless every mother that cry, momma cry for a cause
God, no life is real
Every soldier that die, die for a cause
Die pon the battle field
Bless every mother that cry, momma cry for a cause
God, no life is real
