

These Days

Maverick Sabre

Uh huh. (Ah ah)

Uh huh. (Ah ah)

No pity you're lost in the city
Where no one seems to see your face
Talk with me and feel my heart beating
but no one ever hears my pain

The way I'm livin' is cold and now I'm sitting
Cause you and I done walked away
And these days how I've been feeling is numbing everything in a haze

[Hook:]

I've been lost for days
and hopeless, broken, hatin'
But we never hide
Can't turn back

[Chorus:]

Where do we go if there's no love?
Where do we turn if there's no one?
Where are we gonna go?
Lord knows I need you here to tell me so.

Where do we go if there's no love?
Where do we turn if there's no one?
Where are we gonna go?
Lord knows these days they feel so dark alone.
Dark alone.

Nobody is left here for me
They've run after the fortune and fame (she was)
My honey had changed for my money
It's funny how I get blamed
I've been fighting for love never a diamond
Because dollars seems to own this place
And I feel like it's been killing my souls in this world that just hates

[Hook:]

I've been lost for days
and hopeless, broken places
But we never hide
Can't turn back

[Chorus:]

Where do we go if there's no love?
Where do we turn if there's no one?
Where are we gonna go?
Lord knows I need you here to tell me so.

Where do we go if there's no love?
Where do we turn if there's no one?
Where are we gonna go?
Lord knows these days fell so dark alone.
Dark alone.

[Bridge:]

All we can do is dry these tears
Even when we don't want to
All we can do is fight these fears
Even when they all come true
I don't want to be alone but I'm all alone here for you

Where do we go if there's no love?
Where do we turn if there's no one?
Lord knows, Lord knows I need you here

Where do we go if there's no love?
Where do we turn if there's no one?
Where are we gonna go?
Lord knows these days fell so dark alone.
Dark alone.

Lord tell me so.
Lord tell me so.
Lord tell me so.
I need you here to tell me so
