

If It's a Light

Mavis Staples

If it's a light, then let it grow
Don't let it fall, don't let it stumble
If it's a light, then let it grow
Don't let it fall, don't let it stumble

We've been down this road before
Seen too much now to ignore

Come away from the darkness darling
Step back into the light again
If you call my name then I will come

Don't let the wildness of time cloud your view
We'll keep walking this road me and you

Come away from from the darkness darling
Come back into the light again
If you call my name I will come

If it's a light then let it grow
Don't let it fall don't let it stumble
If it's a light, then let it grow
Don't let it fall, don't let it stumble

If it's a light, then let it grow
Don't let it fall, don't let it stumble
If it's a light, then let it grow
Don't let it fall, don't let it stumble

If it's a light, then let it grow
Don't let it fall, don't let it stumble
If it's a light, then let it grow
Don't let it fall, don't let it stumble
