

Step Into The Light

Mavis Staples

Believe what you want
That no one will care
When you die
The world keeps rolling by

Believe what you will
As you lie there perfectly still
When you die
The world keeps rolling by

Oh Lord, it's a quest to find the place
That will show you the sign
Because it's only time before you
Step into the light, my friend

Step into the light
Walk on through, walk on through
Step into the light

Step into the light
'Cause where we're going to we ascend
It's a never ending journey
Step into the light, my friend

You see what you want
But you're seeing through eyes
That are blind
What you think you're gonna find?

You see what you will
As you're climbing up that hill
Until you die
And the world keeps rolling by

Step into the light
Walk on through, walk on through
Step into the light

Step into the light
'Cause where we're going to we ascend
It's a never ending journey
Step into the light, my friend
