

That's The Way Love Is

Mavis Staples

Monday's so good
Tuesday's so cruel
One day you're so happy now
The next day you're in tears

So you take it while you find it
Or leave it like it is
That's the way it's always been
That's the way love is

Wednesday's alright
But Thursday's all wrong
One day you're alright with it, baby
The next day it's all gone

So you take it while you find it
Or you can leave it like it is
That's the way it's always been
That's the way love is

Friday you'll beg her
Saturday he'll plead
One day she says' he loves you
The next he might be

So you take it while you find it
Or you can leave it like it is
That's the way it's always been
That's the way love is

It seems no fair sometimes
But that's the way love is
It makes you want to cry
But that's the way love is

I know you don't know
What I'm talking about, baby
'Cause I don't believe
You ever been in love
But that's the way love is
