

# Tomorrow

Mavis Staples

I've got something that I really want to say  
Sometimes things just won't go your way  
But don't you worry when the sky turns grey  
Tomorrow is another day  
Life is bound to have ups and downs  
For every smile there will be a frown  
But you'll get through it, come what may  
Tomorrow is another day

Everyone has problems, need a little help  
You don't have to go through it all by yourself  
If you're feeling alone pick up the phone  
When push comes to shove talk to someone you love  
Happiness is the key to success  
Too much stress is gonna leave you depressed  
Don't forget to make some time for play  
Tomorrow is another day

Just remember to love somebody  
Laugh with somebody  
Give to somebody  
Live for somebody  
Love somebody  
Laugh with somebody  
Live for somebody  
Give to somebody else

If at first you don't succeed you probably made some mistake  
Life gives you lemons, go and make a lemon cake  
Don't you worry, everything's gonna be ok  
Tomorrow is another day

Gotta work for what you want  
Nothing comes automatic  
You get out what you put in  
No such thing as magic  
In the end it's all worth it  
Practice makes perfect  
Put love in what you do  
Good things will come to you

I've got something that I really want to say  
Sometimes things just won't go your way  
Don't you worry when the sky turns grey  
Tomorrow is another day  
Life is bound to have ups and downs  
For every smile there will be a frown  
But you'll get through it, come what may  
Tomorrow is another day  
I said tomorrow (another day), tomorrow (another day), tomorrow (another day)  
, tomorrow (another day)  
I said tomorrow (another day), tomorrow (another day), tomorrow (another day)  
) is another day
