What If

Max Schneider

What if I lied told You pigs could fly, Would you believe or Would you laugh?

And what if I stared Would you care, would You ignore me or would You star back, would You stare back

I'm open to suggestions, I'm open to the notion That we could be...

I'm open to suggestions, I'm open to the notion That we could be something Again

We used to dance all night In June, but now our song Is out of tune, what if we Can do it all over, what if We gave it another chance, We gave it another chance

I'm open to suggestions, I'm open to the notion That we could be...

Woah, I'm open to suggestions, I'm open to the notion that we Could be something again

What if I lied? What if I stared? And, What if we danced? Would you be there? 4x
