

# A Million Vacations

Max Webster

(M--Gary McCracken; L--DuBois)

friday friday is a good time to shine / night sea journeys jour  
neys to unwind

losing all survival signs / rerun movies taking all your time

C--a million vacations is what you've got in mind

throwing out all kinds of fishing line / friday friday is a goo  
d time to shine

rant and rave leave this town behind / start over with a new dr  
eam to climb--C

everyone needs a town a tune a dream to rely on

one to dance to one to scream to survive on

you need a high a face a space a chace to rely on

cause you can only drive down main street so many times--C
