

Blue River Liquor Shine

Max Webster

(M--Mitchell; L--DuBois)

Doug Riley: Piano

Doug Stone: Synthesizer

the day seems longer / when your head is hanging down

and you are taking to the back streets / looking for something
lost

finding something found

C--how long does it take this feeling to show

when will this mood i know let go

blue river liquor shine starting to grow

they're just little people / justice seems so round

too many backstreets / without a lost and found

let go of that stranger / he's just hanging around--C
