

Juveniles Don't Stop

Max Webster

(M--Mitchell; L--DuBois)

Dave Stone: Synthesizer

too much peaking deserves more peaking / whose not into rockin'
energy nerves

all your life you must be ready / for that ride into another sp
here

life just may be one day to go / you've only got yourself to fe
ar

fast as you go / you must go faster / you never know if you nev
er dare

juveniles don't stop

no harm in leaving your brain wide open

you're not the first to get it in the rear

what's this joke they call coping / you've only got yourself to
fear

who wants to be a satellite station / man-
made and going nowhere

look at yourself and pull yourself closer / then get out the ri
ot gear

oh world i can't believe / you think our minds aren't clear

oh world we want to rock / so blow it out your ear!

juveniles don't stop
