

# Sure Fire Love

Maxi Priest

Said, I'm needing you more well  
Said, I'm needing you more, oh, girl

The way you say it in your kisses, darling  
In everything you do, I just have to talk about you  
You're there when the sun comes up  
At night you make my dreams come true  
Those little things that you do

And if I go away more than a day or two  
Each time I close my eyes  
I say a little prayer for you

We've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeah

We'll talk about the weather darling  
'Cause the way I feel inside  
There's nothing but blue skies  
And if we spend a little time together  
That's how we keep our love alive, oh well

And if I go away more than a day or two  
Each night I close my eyes  
I say a little prayer for you

We've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeah

And if I go away more than a day or two  
Each time I close my eyes  
I say a little prayer for you

We've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeah

We've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeah

I love you the way you are, girl  
I love you the way you are, yeah  
Oh, girl, I love you
