

W/As My Girl

Maxwell

Turn the lights down low
something you gotta see, yeah
gotta let you know
all that's here in me
say you wanna go
so we can both break free, lady lady

You won't open up wide (oh oh)
how can you not open up wide (oh oh)
how could you do that to me, child
when you know, know I love you girl (oh oh)

Turn the lights down low
tell me what you could see, yeah
tell me what you know
about everything you and me
'cause baby if you wanna go
I got a place we can be, lady lady

How could you not wanna wanna wanna open open wide (oh oh)
how could you make me ride (oh oh oh)
how could you, how could you do that to me, why
when you know that I love you, girl (know I love you girl)

Love you girl

Turn the lights down low
something you gotta see, yeah
gotta let you know
