

# Burn Your Witches

MaYaN

Great winds blow  
Over steepest hills  
Be prepared for this storm

It won't fail  
And it never will  
You can't stop how it's been formed

When an illusive obsession turns into hate  
You've lost your mind, get yourself  
Back on track

Burn your witches  
Take back control  
Meet your wishes  
Don't drown yourself in  
Hate that fuels your mind

Great winds blow  
Over arid plains  
Be prepared for this storm

It won't fail  
And it never will  
Let it happen, let it go

Burn your witches  
Take back control  
Meet your wishes  
Don't lose yourself  
And gain the world

Great winds blow  
Over deepest seas  
Be prepared for this storm

It won't fail  
And it never will  
You can't stop how it's been formed

Burn your witches  
Take back control  
Meet your wishes  
Don't lose yourself in hate  
Burn your witches

Burn your witches  
Take back control  
Meet your wishes  
Don't drown yourself in hate  
Take back control  
Burn your witches now
