Capital Punishment

Thousand of people Right now Are waiting to be executed Thousand of people will die

Some of these people In fact Are totally innocent But most of those people will die anyway

Quel che credi non fai tu Se non paghi soffrirai

Thousand of people Deny But can't afford a proper defense And most of those people have no chance

Some of these people In fact Get executed anyway Even when there is no evidence

Feel the heat The smell of burning flesh The convicted screaming for grace It's an entertaining spectacle

Quel che credi non fai tu L'innocenza un prezzo ha La condanna arriverà Compra la tua verità
