## A Shot Across the Bow

## **Mayday Parade**

It's time I said this, but I'm so choked up And I need my sanity I'm scared, believe me You can see me smile If you let me just stick around

Well this is bye, bye baby It ended like a sudden stop on a freight train If you're not happy and you hurt this much Then let me just stick around

Can I have one second of your time? If I don't it'll drive me crazy As I drop to my knees And scream "I hate you more than you could know"

I hope you fall into the ocean And the current leaves you helpless swimming around As the waves crash over you until you drown and float away And hold a funeral for nothing And celebrate how empty love can be broken It takes the sea to put you six feet happily underground

Now it's back to reality I'm left in shambles but I guess that's how I should be I knew the wedding bells were ringing loud But my bride was missing No, it's not supposed to hurt this much But when someone slowly breaks it off It tends to leave a bitter taste A scar, that slowly rips apart

Can I have one second of your time? If I don't it'll drive me crazy As I drop to my knees And scream "I hate you more than you could know"

I hope you fall into the ocean And the current leaves you helpless swimming around As the waves crash over you until you drown and float away And hold a funeral for nothing And celebrate how empty love can be broken It takes the sea to put you six feet happily underground Underground

I've had enough but it's all for the best I need to get a few things off my chest There's got to be another way I can say it But to get it right, I have to get straight I hope he tasted like the way I used to taste I can't believe I'd even say this to you now When you won't listen at all

I hope you fall into the ocean And the current leaves you helpless swimming around As the waves crash over you, and over you until you drown And we'll hold a funeral for nothing And celebrate how empty love can be broken It takes the sea to put you six feet happily underground It takes the sea to put you six feet happily underground
