

Hollow

Mayday Parade

She's a cold-blooded killer
Go and find who sent her
Bring me the heart and leave the rest for dead
Seven saints and sinners
And only God forgives her
Hollow, hollow, hollow
The truth you swallow, swallow

I am the cancer
Try and find your center
Take care your lance and cut away
(Cut away, let's run away)
So what if I don't want to leave
Could you take it?
Would you make it?

She's a cold-blooded killer
Go and find who sent her
Bring me the heart and leave the rest for dead
Hollow, hollow, hollow
The truth you swallow, swallow
Bring me the head
And cast the rest away

Hollow, hollow, hollow
The truth you swallow, swallow
Hollow, hollow, hollow
The truth you swallow

She's a cold-blooded killer
Go and find who sent her
Bring me the heart and leave the rest for dead
Hollow, hollow, hollow
The truth you swallow, swallow
Bring me the head
And cast the rest away
