

# How Do You Like Me Now

Mayday Parade

So tell me what you think of love, does it look like me?  
And when I touch it do you feel the drug?  
So put me in my place like I forget (No, no)  
Say if I bend, you'll break these walls down love

Everybody knows  
I don't wanna die alone, say you'll come for me  
But I'm lost and found, I'm already jaded  
Say what you think you out loud or forever hold your peace  
You can turn your back but the sunset is fading  
Say what you think out loud, how do you like me now?

Do you feel the afterglow?  
Does it taste like me when you're caught up in the undertow?  
Try and keep this safe and locked away somewhere below

But everybody knows  
I don't wanna die alone, say you'll come for me  
But I'm lost and found, I'm already jaded  
Say what you think you out loud or forever hold your peace  
You can turn your back but the sunset is fading  
Say what you think out loud, how do you like me now?

How do you like me now?

Do you like the way it tastes?

Everybody knows  
I don't wanna die alone, say you'll come for me  
But I'm lost and found, I'm already jaded  
Say what you think you out loud or forever hold your peace  
You can turn your back but the sunset is fading  
Say what you think out loud, how do you like me now?

That hand you hold is letting go  
The sunset is fading  
So how do you like me now?
