

# If I Were You

Mayday Parade

Here we go again  
Pack your bags and leave all caution to the wind  
I've got a bad feeling that the roads you take  
Will take longer than we planned

We used to drive all night on the 319  
Singing songs with our friends that you threw away  
You know, you dropped the bomb that killed the night

If I were you, I'd cancel every plan that I've made today  
And drive as far away to a place where no one knows my name

It's 3 A.M. and I'm lonely

Here's the place I'm at now  
At least you made me better with my goodbyes  
Consider it a lesson to learn how to get through  
Feeling hopeless for the first time

We used to drive all night on the 319  
Singing songs with our friends that you threw away  
You know, you dropped the bomb that killed the night  
But we made it out alive

If I were you, I'd cancel every plan that I've made today  
And drive as far away to a place where no one knows my name  
If I were you, I'd take back everything I once claimed to be  
I'd sing old songs that we used to sing

It's 3 A.M. and I'm lonely  
Lonely, lonely  
It's 3 A.M. and I'm lonely  
Lonely, lonely  
It's 3 A.M. and I'm lonely

We used to drive all night on the 319  
Singing songs with our friends that you threw away

It's 3 A.M. and I'm lonely  
Lonely, lonely  
It's 3 A.M. and I'm lonely
