

# One of Them Will Destroy the Other

Mayday Parade

I don't know, man  
I think I'm starting to feel something peculiar  
Something that's either aggression or it's got all possession o  
f my mind  
I'm so weak  
I'm starting over won't you pull it back together for me

Nobody's ever gonna show me what I'm looking for  
And I'm never gonna feel that fire again

He's gonna come around any one of these days and we'll just sta  
y here in the meantime  
My one bad habit was to watch you sad and feel a little bit at  
home

Play it faster, there's company to keep  
A little louder just to tear a hole in me  
I admire the desire that comes out of your mouth  
You're always saying that you've got it all figured out

Nobody's ever gonna show me what I'm looking for  
And I'm never gonna feel that fire again

He's gonna come around any one of these days and we'll just sta  
y here in the meantime  
My one bad habit was to watch you sad and feel a little bit at  
home

He's gonna come around any one of these days and we'll just wai  
t here in the meantime  
It never happened and it never will, go on and show me the way  
home

Poison stays it's goal without you (get it while you can)  
Poison needs no help from you

Wish me over the edge this time  
Let me fall, I'm already chasing you

He's gonna come around any one of these days and we'll just sta  
y here in the meantime  
My one bad habit was to watch you sad and feel a little bit at  
home

He's gonna come around any one of these days and we'll just wai  
t here in the meantime  
It never happened and it never will

Wasting all my time on everybody else  
You know I don't mind  
Wasting all my time, I know I'll get it back
