

# Take This to Heart

Mayday Parade

Cause I'm a mess and you know that I can't help it  
The drive home never seemed this long before  
Killing time just a little bit faster  
And I swear we'll make it

But I can't tell you what I don't know  
(Be mine tonight, be mine tonight)  
The simple things, they make my heart go  
(Be mine tonight, be mine tonight)  
But I can't tell you what I don't know  
You'll have to wait  
You'll have to wait

Stay safe stay strong  
And let me know that you'll be here while i am gone  
Because I'm coming home  
Coming home tonight  
Let's get this right  
I said I'm coming home  
Coming home tonight

You sounded hurt and you know that I believe you  
Searching every little thing to find a way  
To tell your heart just to wait a little longer  
I swear we'll make it

But I can't tell you what I don't know  
(Be mine tonight, be mine tonight)  
The simple things, they make my heart go

(Be mine tonight, be mine tonight)  
But I can't tell you what I don't know  
You'll have to wait  
You'll have to wait  
Stay safe stay strong  
And let me know that you'll be here while i am gone  
Because I'm coming home  
Coming home tonight  
Let's get this right  
I said I'm coming home  
Coming home tonight

One more night  
And we'll go spinning around the room  
and dance with our hearts on fire  
Cause every song is ours tonight  
And if you love me so  
im gonna tell the whole world  
That it's greatest thing that happened to me  
I finally found a good reason to come home

Stay safe stay strong  
And let me know that you'll be here while i am gone  
Because I'm coming home  
Coming home tonight  
Let's get this right  
I said I'm coming home

Coming home tonight
