Underneath the Tide

Mayday Parade

We went over the edge
Took it way too far
Way too far
Throwing words like knives
Somewhere in between
We lost our faith
But found some grace
It's us against the world

If you could take it all away
Would you, would you
Take it all away?

Save all that you can and let your heart slide
There's not much left but it is all mine
[?] we will be fine
Slipping underneath the tide

Hated as a villain and I'm fine with it
I'll move on and we'll be stronger now than we ever were
Because we gave it all we had

Take it all away
Would you, would you
Take it all away?

Save all that you can and let your heart slide
There's not much left but it is all mine
[?] we will be fine
Slipping underneath the tide

Hated as a villain and I'm fine with it
I'll move on and we'll be stronger now than we ever were
Because we gave it all we had
