

All Better

Mayer Hawthorne

Love don't bring me down
You can turn me around
Love don't lead me out
And then leave me all alone

Love don't do me wrong
I've been waiting too long
Love don't set me up
And then pull the rug away

Love can make me all better
Love can make me all right
Love can pull me together
So just make me all better tonight.

Love don't say goodbye
Leave me wondering why
Love don't come halfway
And leave one foot out the door

Love please let me stay
Don't you throw me away
Love don't wring me out
And then hang me up to dry.

Love can make me all better
Love can make me all right
Love can pull me together
So just make me all better tonight.

La la la la la...
