

# Robot Love

Mayer Hawthorne

I'm a lover  
With robot veins  
Pumping Valvoline  
To my robot brain  
Switch me on  
See the glowing light  
I'm programmable  
I can go all night

But lately I've been feeling oh so cold  
And every night's the same  
I can't keep going through the motions  
Again and again, and again.

When we're makin' love  
(Don't just treat me like a sex machine)  
Cause it's not enough  
(You got to give a little more for me)

Under the covers  
It's a one-way road  
We've got to care for one another or this game is gonna get real old  
You used to wear  
Agent Provocateur,  
A chiffon gown movin' 'round, accentuating your voluptuous curves  
Yeah yeah yeah yeah

But lately I've been feeling oh so cold  
And every night's the same  
I can't keep going through the motions  
Again and again, and again.

When we're makin' love  
(Don't just treat me like a sex machine)  
Cause it's not enough  
(You got to give a little more for me)

Give it to me baby,  
Give it to me baby,  
Give it to me baby,  
Yeah give it to me baby.

When we're makin' love  
(Don't just treat me like a sex machine)  
Cause it's not enough  
(You got to give a little more for me)
