

Posthuman

Mayhem

Fake planes weaving
Chemtrails cross the sky
Scalar waves
Frequency cage
Nowhere to hide

Death from above

Salt the earth
Kill the bees
Collapse the colonies

Nanotech zombie dust
Morgellon machines
Everyone will receive
The mark of the beast

Blue beams project false prophets

Poson Frankenfood
Man made bacteria
Forced toxic vaccinations

Psychotronic holocaust
Invisible mind police
Silent weapons for quiet wars

Lost chance for life
Thrown away

Out of time
Omega Point

Genderless manimals
Dehumanized society
Artificial unintelligence
Emerging singularity

End of evolution
Resistance is futile
I am the transcendence man
