

You Must Fall

Mayhem

The claws of death await you, Soul less on your deathbed,
The witches dance in circles, As your manhood fades away,
When the world of glass shatters, A shapeshifter appears before
you,
Exposing your loathsome self, Life does not forgive weakness.

This is all but falseness, You have nothing, you are nothing,
I shall reveal your truth, I Am the Ghoul you fear,
I Am the psychic truth, I Was There when Satan went.
