

All My Life

Maysa

The morning sun rises once again
Another lonely night without your touch
And though I've never seen your sweet face
It doesn't matter I need you oh so much

I've been preparing a house of love
Just for you and me babe
(Ooooh) I just can't wait

(I've been) loving you all my life
Waiting for you to call
Loving you all my life
Wondering when I'll fall into your arms
I've been loving you (oh so long)

No one understands
How you make me feel
But deep inside my heart
I know you're real
I know we've never met before
But I couldn't love you more

So, I've been preparing a house of love
Just for you and me babe
(Repeat chorus)
