

# All My Life

Maysa

The morning sun rises once again  
Another lonely night without your touch  
And though I've never seen your sweet face  
It doesn't matter I need you oh so much

I've been preparing a house of love  
Just for you and me babe  
(Ooooh) I just can't wait

(I've been) loving you all my life  
Waiting for you to call  
Loving you all my life  
Wondering when I'll fall into your arms  
I've been loving you (oh so long)

No one understands  
How you make me feel  
But deep inside my heart  
I know you're real  
I know we've never met before  
But I couldn't love you more

So, I've been preparing a house of love  
Just for you and me babe  
(Repeat chorus)
