

Can We Change The World

Maysa

I saw an old lady sitting on the street
She looked worn and tired
She had no food to eat
Help is gotta be somewhere
She really shouldn't be sitting there
So cold and lonely

If you ask me the questions
I tell you no lie
What we are wondering is where the answer lies
What do we do and
What should we say?
All I know is there's one question

Can we change the world?
Will we find the answers?
Will we change the world?
Can we make it right?

Brother fights brother
Fair play with long affairs
What is to make the world go round
Make love if you dare
Really should not be this way but
Just living in the world today
So hard to do

Only we can change the world
