Pressure

The road is long, many turns along the way We lose control of the things we do and say Oooh, I can't stop what's going on.

Sometimes we need a little rain Wash away the pressure, pressure Bring back the days Like children in the rain Take away the pressure, pressure

The world demands, so much everyday We do our best, but sometimes it's never enough I can't stop what's goin' on

Sometimes we need a little rain Wash away the pressure, pressure Bring back the days Like children in the rain Take away the pressure, pressure (repeat)
