

Gone Without A Reason

Maywood

You walked me home after school
You carried my bag and my jacket
Most of the children just envied my friend
They were so jealous of me at the end
Maybe we lived in a dream
Maybe we were only children
Now that I'm older and now that you're gone
I still don't know what went wrong

My love (my love), for you (for you)
Will never die, that's true
Somehow I feel that I lost a friend
Can I accept it, maybe I can't
Gone without a reason, like the wind

I will remember your smile
I will remember the morning
Thunder and lightning came out of the sky
I was so scared that I felt I could die
You held me close in your arms
Finally we were together
Now that I'm older and now that you're gone
I still don't know what went wrong

My love (my love), for you (for you)
Will never die, that's true
Somehow I feel that I lost a friend
Can I accept it, maybe I can't
Gone without a reason, like the wind

My love (my love), for you (for you)
Will never die, that's true
Somehow I feel that I lost a friend
Can I accept it, maybe I can't
Gone without a reason, like the wind

Gone without a reason, like the wind
