Help The Children Of Brazil

Maywood

Everybody don't forget
At the end we might regret
We never really tried, instead
We walked away
Would you want to take the blame
For not helping? It's a shame
Life out there's a rotten game
What would you say?

I believe in it still
Help the children of Brazil
Drag 'em out of the fear
And the misery
Give them glory and faith
And please don't let them wait
Help before it's too late
But don't let it be

Many tears we have to dry
Should you ever wanna try
Helping out for God knows why
You can't give up
Children need a place to live
Where we all got love to give
So show the world initiative
And let it stop

[2x:]
I believe in it still
Help the children of Brazil
Drag 'em out of the fear
And the misery
Give them glory and faith
And please don't let them wait
Help before it's too late
But don't let it be
