I'm In Love For The Very First Time

I'm in love for the very first time.
I'm like a ship in the general line.
I've got happiness, laughter, joy ever after.
I'm in love for the very first time.

Yes, I feel that we must stick together,
No matter what the future will bring.
Now you've said, you will love me forever
And today I've got a reason to sing.
Let me always be with you, my darling.
Because without you, I can't live anymore.
When we're sailing together, my darling,
You will get me safely ashore.
