I'm In Love For The Very First Time

I'm in love for the very first time.  
I'm like a shop in the general line.  
I've got happiness, laughter, joy ever after.  
I'm in love for the very first time.

Yes, I feel that we must stick together,  
No matter what the future will bring.  
Now you've said, you will love me forever  
And today I've got a reason to sing.  
Let me always be with you, my darling.  
Because without you, I can't live anymore.  
When we're sailing together, my darling,  
You will get me safely ashore.
