

## Just A Little Bit Of Love

Maywood

Just a little bit of love  
That is all we need for the second day  
Is it hard to be a friend  
For a little while in a simple way  
Just a little bit of love  
And a friendly face makes the world look bright  
And a shining star above  
Will help you through the darkest night

When you feel down  
Don't sit and cry the whole day through  
Don't wonder why  
It all must happen to you  
Put on your coat, come over  
No, it can't be that bad  
Put on a smile, don't look so sad

Just a little bit of love  
That is all we need for the second day  
Is it hard to be a friend  
For a little while in a simple way  
Just a little bit of love  
And a friendly face makes the world look bright  
And a shining star above  
Will help you through the darkest night

Don't walk away  
When times get rough you can't hold on  
Maybe some day  
You'll be alright where you belong  
Put on your coat, come over  
No, it can't be that bad  
Put on a smile, don't look so sad

[2x:]

Just a little bit of love  
That is all we need for the second day  
Is it hard to be a friend  
For a little while in a simple way  
Just a little bit of love  
And a friendly face makes the world look bright  
And a shining star above  
Will help you through the darkest night

And a shining star above  
Will help you through the darkest night
